## Flexible Roof Repair & Protection System

Belzona® 3111 (Flexible Membrane) is a single component solvent free microporous coating for the long-term repair and protection of all types of roofs.

This versatile liquid applied material provides outstanding weatherproofing and waterproofing properties with excellent protection against infrared and ultra violet radiation.

### **Belzona® 3111 (Flexible Membrane) will:**

- Simplify roofing maintenance
- Provide long-term protection - 20 years +
- Bond strongly to all types of roofing substrate
- Follow complex roof contours

This lightweight seamless polymer coating bonds tenaciously to a wide range of substrates including felt, asphalt, lead, zinc, copper, glass, concrete and brick.

Its low odour enables application during working hours with no disruptions to operations.

### **Belzona® 3111** Flexible Membrane

Gutters

Glazing Bars

Skylights

Flashings

### **Applications for Belzona® 3111 (Flexible Membrane) include:**

- Upstands

Belzona® provides the solution to your repair and maintenance needs.

  
**BELZONA®**  
Repair • Protect • Improve

# Belzona® 3111 (Flexible Membrane) is:

## Simple

- Easy brush application
- Single component, no mixing required

## Safe

- Application requires no heat
- Lightweight application
- Low odour

## Versatile

- Follows complex roof contours
- Highly elastic, adapts to roof movements
- Microporous, allows substrate to breathe
- Bonds strongly to most substrates
- Total encapsulation

## Effective

- Long-term repair and protection
- Outstanding environmental protection
- European Technical Approval
